JR. CENTER OF ART & SCIENCE
SCHOOL PROGRAMS

ABOUT US.

The Junior Center of Art and Science encourages children's natural wonder and innovation through **creative exploration** in the arts and sciences. We do so through hands-on activities, inquiry led discussion, and collaborative play. With the Junior Center, students will find a warm, inclusive space that provides skill building in experimentation, problem-solving, and innovation with practicing artists and scientists.

We are proud to have served Oakland and the greater East Bay for over 60 years. Each year, we reach over 10,000 students from the ages of 2 to 17 years old.

EXHIBITIONS & SCHOOL TOURS

The Junior Center offers fun and engaging field trip opportunities through our school tour program. Students experience a guided tour of work on display in our gallery, engage in inquiry-led group discussion, then participate in a hands-on making activity led by one of our instructors.

Our tours support Common Core State Standards by encouraging critical thinking, communication, creativity and collaboration by looking at, talking about, and making original works of art.

- Tours are available Wednesday, Thursday, and Friday at 9:30am
- Tours are 90-minutes long
- Cost is \$5 per student; \$100 minimum and maximum of 32 students
- Chaperones are required (one per ten students recommended)

Our programs support:

CA Common Core Standards

CA Next Generation Science Standards (NGSS)

CA Visual and Performing Arts Standards

SCHOOL RESIDENCIES

We offer artist-in-residence and STEAM programs both in-school and after school. We also offer professional development programs for teachers and parents.

Our programs are custom designed to meet the unique and individual needs of each school partner.

During a typical residency, our instructors visit a classroom once a week for up to 90-minutes. Jr. Center instructors work directly with teachers to integrate arts and science concepts into student learning and enhance the learning happening in other subject areas.

Each residency includes:

- + A planning meeting to define customized goals/objectives
- + Original curriculum designed for each program
- + Program supplies and educational materials
- + Hands-on activities for participants
- + Culminating presentation of participants' learning

We work directly with schools to customize the residency length, number of classes served, and visits per week to fit within your budget. For example:

UNDER \$6,200

- + 1 Short-term, 8-week residency for 3 classrooms
- + 1 Planning meeting between a Jr. Center instructor and teachers
- + 8 90-minute sessions with a Jr. Center instructor in 3 classrooms
- + All program supplies and educational materials
- + 1 culminating event

UNDER \$2,300

- + 1 Short-term, 8-week residency for 1 classroom
- + 1 Planning meeting between a Jr. Center instructor and teachers
- + 8 90-minute sessions with a Jr. Center instructor in 3 classrooms
- + All program supplies and educational materials
- + 1 culminating event

UNDER \$1,300

- + 1 Short-term, 8-week residency after school
- + 1 Planning meeting between a Jr. Center instructor and coordinator
- + 8 60-minute sessions with a Jr. Center instructor in 1 classrooms
- + All program supplies and educational materials
- + 1 culminating event
